HELLENIC SHIPBUILDING INDUSTRY

THE FUTURE OF SHIPBUILDING

Driving innovation in ship repairs, conversions, steelworks and NewBuildings with advanced shipyard technologies.

Every success starts with a vision — and this is ours.

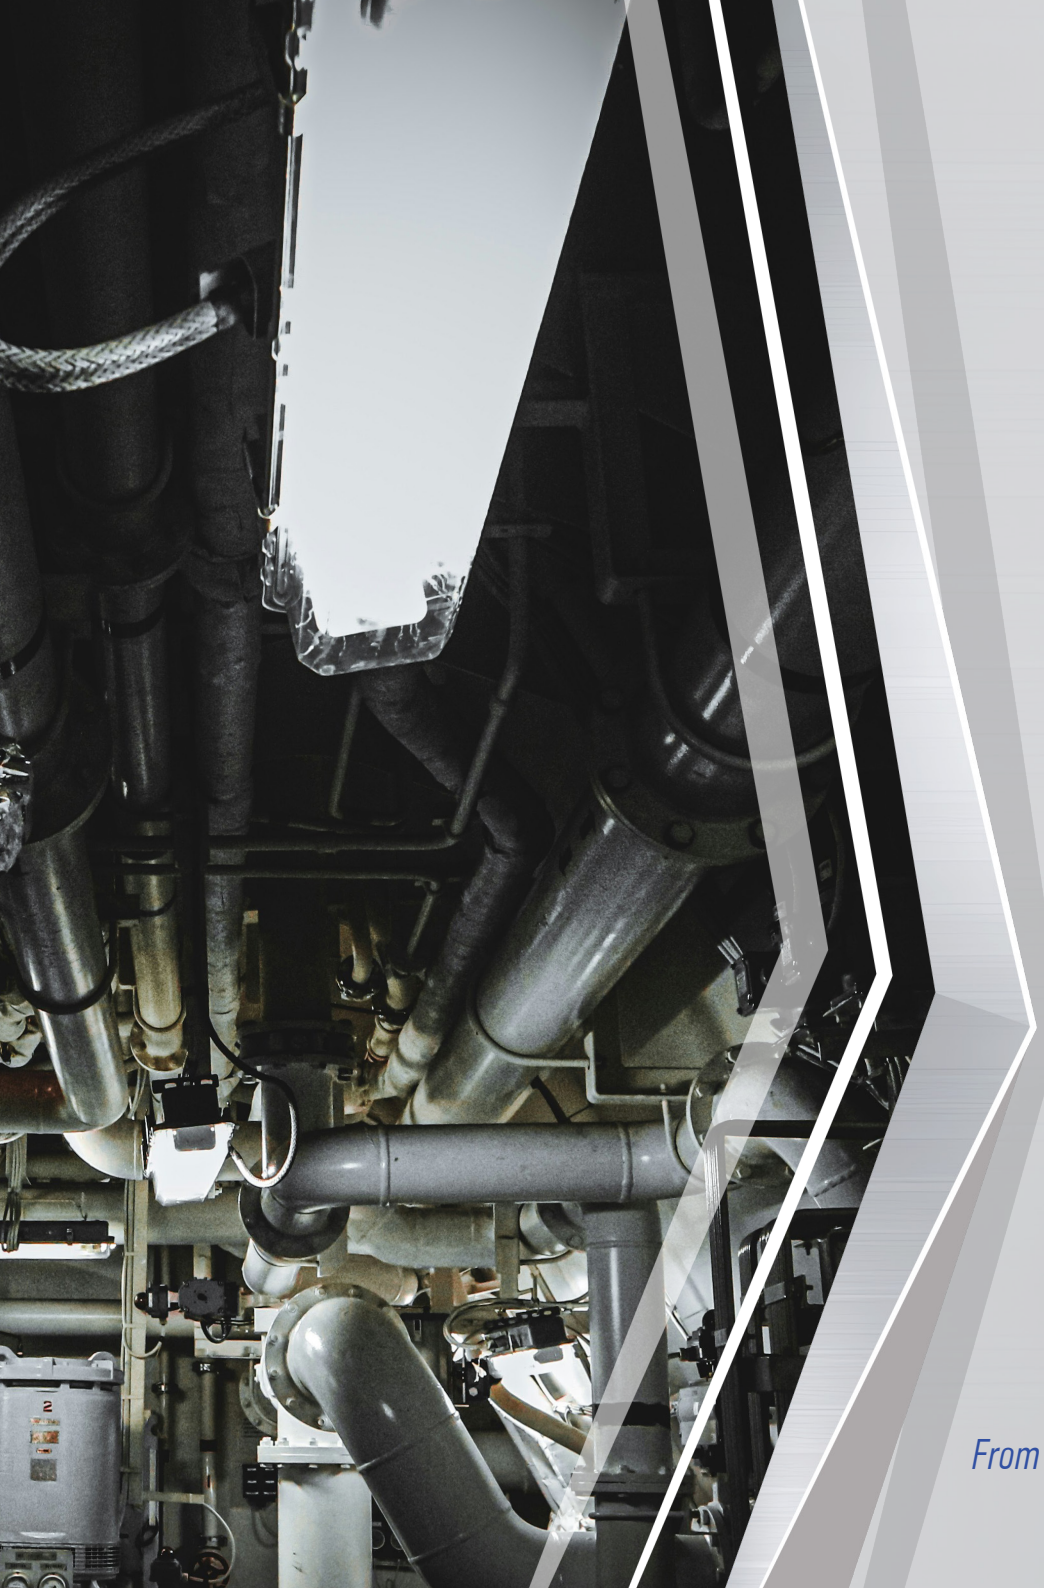

HELLENIC SHIPBUILDING INDUSTRY

PROVEN EXPERIENCE, TRUSTED RESULTS

HSI specializes in shipbuilding, ship repairs and conversions, consistently meeting and exceeding client expectations.

With decades of proven expertise and know-how, HSI has become Greece's trusted hub for vessel repairs and conversions.

- Since 1996, expanding into medium-sized commercial NewBuildings
- Successful delivery of numerous vessel projects
- Strong track record across tankers, cargo ships, Ro-Ro and specialized vessels

HELLENIC SHIPBUILDING INDUSTRY

CORE SERVICES

- Ship repairs & steel construction works
- Ship conversions
- NewBuilding projects
- Plate & piping fabrication
- Prefabrication & installation of Ballast Water Treatment Systems (BWTS)
- Prefabrication & installation of Scrubber Systems
- Hydroblasting, Painting, Tank Coating, Cleaning
- Naval Architecture & Marine Engineering, 2D/3D design and progress reporting
- Repairs Specification
- Insulation, Boilers, Electrical Works

From repairs to newbuilds, our know-how delivers solutions that keep every vessel moving

HELLENIC SHIPBUILDING INDUSTRY

CONVERSIONS

HSI has over 50 years of experience in ship conversions, offering extensive know-how and proven competence.

PROJECTS INCLUDE:

- Cable-laying vessels converted into pipe-laying vessels
- Upgrading single-hull tankers to double-hull tankers
- Transforming Ro-Ro cargo ships into Ro-Ro passenger ships

HELLENIC SHIPBUILDING INDUSTRY

REPAIRS

HSI has successfully completed hundreds of ship repair projects across all vessel types — from cargo ships and tankers to luxury yachts.

- High-quality, cost-effective and timely results
- Tailored repair solutions for each client's needs
- Certified welding, steel renewals and emergency repairs

HELLENIC SHIPBUILDING INDUSTRY

NEWBUILDING & CONSTRUCTIONS

Founded by professionals with over 50 years of combined expertise, HSI entered the NewBuilding sector in 1996.
Since then, we have specialized in new constructions up to 5,000 DWT and comprehensive ship repair services, both in-port and onboard.

OUR CAPABILITIES INCLUDE:

- Steel and piping works, including Ballast Water Treatment System (BWTS) installations
- New constructions ranging from yachts and ferries to tankers, tugboats, and offshore platforms

WE ENSURE:

- End-to-end project execution – from design to final delivery
- Precision, efficiency, and commitment to excellence
- Reliable completion of fully customized shipbuilding projects

HELLENIC SHIPBUILDING INDUSTRY

INFRASTRUCTURE & CAPABILITIES

HSI combines modern shipyard facilities, advanced technologies and a highly skilled workforce to deliver complex projects.

- 5,000 m^2 sheltered & open workshop space in Perama
- Access to P.P.A. S.A. facilities in Perama Repair Zone
- Berths in Drapetsona & 5 floating dry docks (up to Panamax size)
- Advanced plate-cutting robotic systems for precision steelworks

HELLENIC SHIPBUILDING INDUSTRY

ENGINEERING & WORK PROGRESS

- Naval architecture – 2D & 3D plans
- Technical drafting & as-built documentation
- Continuous monitoring & work progress reports
- Engineering support for Class compliance & client requirements

HELLENIC SHIPBUILDING INDUSTRY

SUSTAINABILITY

HSI supports the maritime industry's transition towards greener operations by participating in the implementation of sustainable shipbuilding projects.

Through our expertise and technical capabilities, we contribute to solutions that reduce environmental impact and ensure compliance with international regulations.

OUR CONTRIBUTION INCLUDES:

- Prefabrication & installation works for Ballast Water Treatment Systems – protecting marine ecosystems
- Prefabrication & installation of Scrubber Systems – reducing SOx emissions
- Applying best construction practices – enhancing efficiency & supporting sustainable shipbuilding standards
- Commissioning Testing of Ballast Water Management System (BWMS) on board with LuminUltra equipment.

HELLENIC SHIPBUILDING INDUSTRY

SAFETY & CERTIFICATIONS

HSI places Safety, Accuracy, and Know-how at the core of every project.

- ISO 9001:2015 – Quality Management
- ISO 14001:2015 – Environmental Management
- ISO 45001:2018 – Occupational Health & Safety
- All required Class approvals
- Certified by LRQA Hellas S.A. (UKAS Accredited)

Safety, accuracy, and know-how — the foundations of trust in every project we deliver.
